

Curved Reception

388 Series

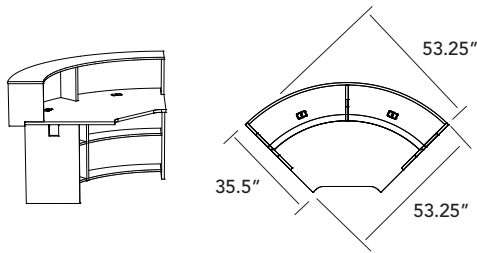

Features:

- 3 Design Styles - Waterfall gallery height design
 - Classic gallery height design
 - Desk height curved design
- Curved transaction tops & front panels are high-pressure laminate (HP)
See finish chart for high-pressure options
- Ideal for two-tone reception designs (Grey Dusk or Grey are recommended as body finish on the curve)
- Curved units have shelving below worksurface & exposed gables for 3D effect
- Transaction tops are 1" thick laminate, work surfaces are 1" thick
- Complete reception layout with compatible connector units
- Includes specialized gallery connectors designed for height adjustable desking
- Straight units have non-exposed gables, full-width front panels.
- Front panels have horizontal grain
- Compatible with other Heartwood Series (388 Series storage shown)
- Curved components ship Full Carton (assembled) & double door clearance is required

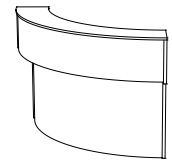

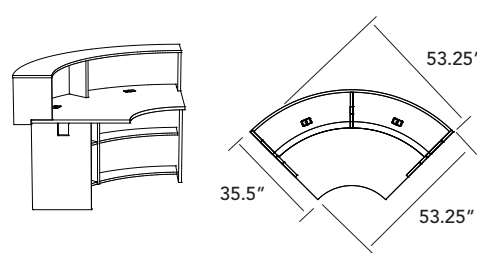

Waterfall Design:

- Curved waterfall corner module or corner module wedge components
- Classic corner module cutback profile or radius corner module profile
- Combine curved components with height-adjustable waterfall connectors, standard waterfall connectors or desk height overhang connectors to create reception desking designs
- Height-adjustable connectors are specifically designed to integrate with 2-leg height adjustable desk models
- Standard connector widths are 48", 60" & 72"
- Connector units available with three standard gable sets
 - AGC** - Full gable, tall back & connecting gable
 - CGC** - Connecting gable, tall back & connecting gable
 - CGA** - Connecting gable, tall back & full gable
