Through our long term relationships with our clients, we have a clear understanding of your expectations and requests.

MityBilt Products & FIRST NATION SCHOOLS

MityBilt Products Inc. was started 25 years ago by a visionary who realized that educational furniture was not meeting the requirements of First Nation communities. MityBilt Products designed a range of educational furniture that incorporated benefits that has made it the choice of First Nation schools across Canada. Our First Nation customer values are still embodied in the contemporary and durable furniture for today's 21st Century Classroom furniture.

MityBilt Products included both colour and shape into their furniture knowing the importance these features to our First Nation customers. MityBilt provides a wide choice of colours and shapes for both soft and hard furnishings.

THE MEDICINE WHEEL, has been used by generations of various Native American tribes for health and healing. It embodies the Four Directions, as well as Father Sky, Mother Earth, and Spirit Tree, all of which symbolize dimensions of health and the cycles of life.

THE MEDICINE WHEEL TABLE

Different tribes interpret the Medicine Wheel differently. Each of the 4 Directions (Noth, East, South & West) is typically represented by a distinctive color, such as white, red, yellow, and black, which for some stands for the human races.

The Medicine Wheel Table is an exclusive product by MityBilt that conforms to MityBilt Standards like 3mm Viny bonded edge, Chewing gum resistant backing, a high density particle board and a high pressure laminate.

MEDICINE WHEEL COLLABORATIVE TABLES

The concept of collaborative learning, the grouping and pairing of students for the purpose of achieving an academic goal, has been widely researched and advocated. The term “collaborative learning” refers to an instruction method in which students at various performance levels work together in small groups toward a common goal.

The students are responsible for one another’s learning as well as their own. Thus, the success of one student helps other students to be successful. The active exchange of ideas within small groups not only increases interest among the participants but also promotes critical thinking.
